# PROJECT REPORT

# 1.Introduation

- **1.1 Overview**

General elections were held in India in seven phases from 11 April to 19 May 2019 to elect the members of the 17th Lok Sabha. Votes were counted and the result was declared on 23 May. The election resulted in a landslide victory for the BJP which won 303 seats and formed the government.

Around 912 million people were eligible to vote, and voter turnout was over 67 percent – the highest ever, as well as the highest ever participation by women voters.

The election resulted in a landslide victory for the BJP which won 303 seats and formed the government. Around 912 million people were eligible to vote, and voter turnout was over 67 percent – the highest ever, as well as the highest ever participation by women voters.

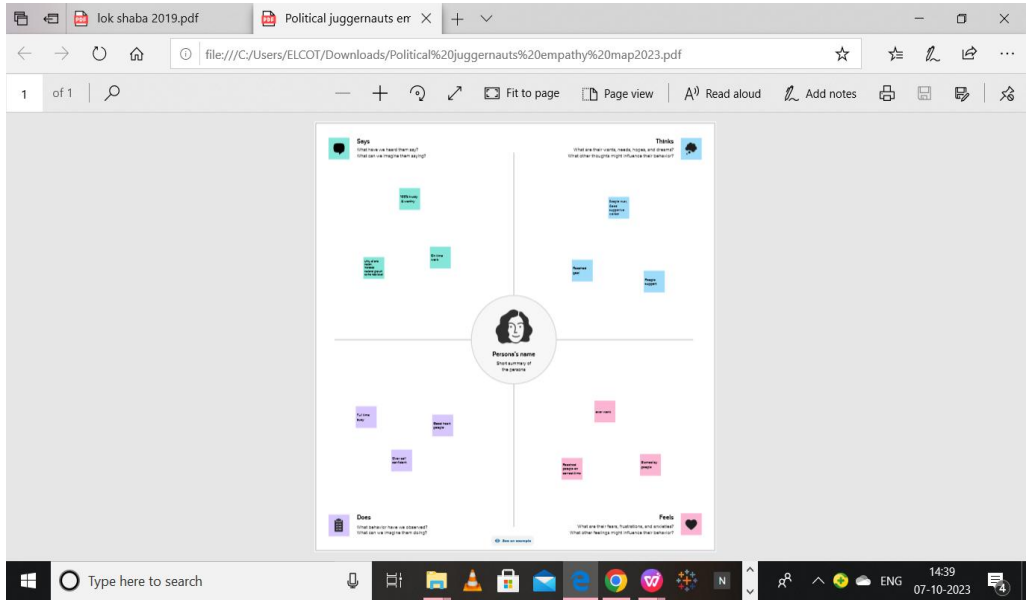
- **1.2 Purpose**

**We can learn about the different political parties, their background history as well as their recent success and failure in the Lok Sabha election 2019 in India.**

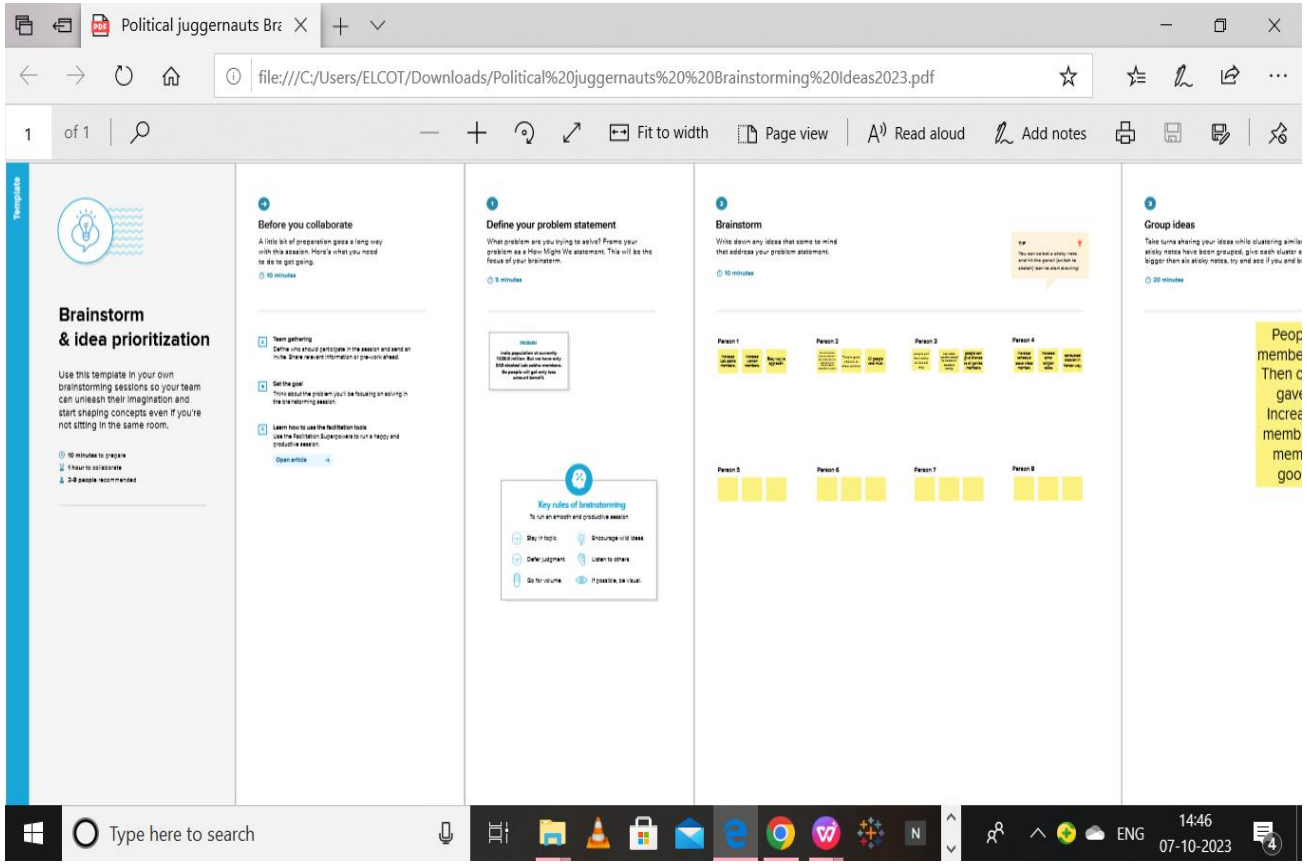
**We can aware of the candidate's history as well as the nature of the political party. We can learn about the winning party and their success in 2019.**

# 2.Problem definition and desing Thinking

- **2.1 Empathy Map**



# 2.2 Identification & Brainstoming Map



Political juggernauts Bra

## Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.

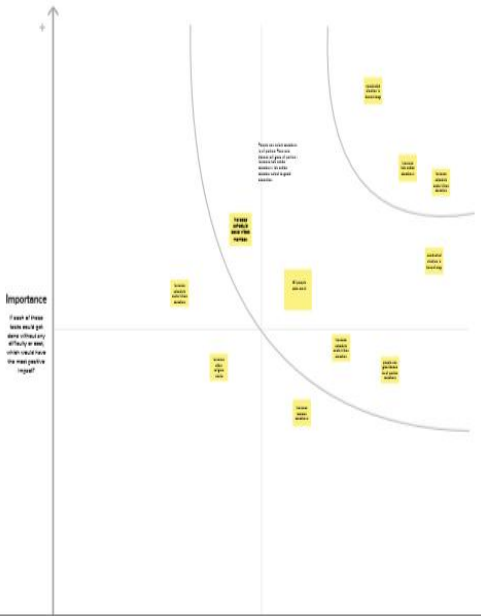
20 minutes

People can select members In all parties. Then one chance will gave all parties . Increase Lok sabha members . lok sabha member select to good executive.

## Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes



## After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

Quick add-ons

Share the mural
Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.

Export the mural
Export a copy of the mural as a PNG or PDF to attach to emails, include in slides, or save in your drive.

Keep moving forward

Strategy blueprint
Define the components of a new idea or strategy.

# 4. Advantages and Disadvantages

From this analysis, we have found that Indians are very much aware of the voting system and political parties. The vote percentage is very good in Kerala, West Bengal, Manipur, Maharashtra, etc.

Unfortunately, we found that the candidates of Kerala have maximum criminal cases history, and West- Bengal, Uttar Pradesh, and Telangana are not far behind. The maximum no of criminal cases done by a single person is 240 and he is from Kerala.

# 5 .Application

We know that everyone has the right to vote in our country. But many people are not aware of politics. So by this project, we can learn about the different political parties, their background history as well as their recent success and failure in the Lok Sabha election 2019 in India.

# 6.Conclusion

From the above analysis, we can conclude the following points

- The BJP candidates have participated more than the other parties in Lok Sabha 2019.
- It is transparent that the total number of votes in Maharastra, Uttar Pradesh, and West Bengal are very much higher than the remaining states in India and Uttar Pradesh holds first place in the total number of votes.
- The number of female candidates is very less than the number of male candidates.

# 7.Future Scope

The candidate's educational qualification vs criminal cases they have. Now we are aware of their previous criminal background with their educational qualification

# 8.Appendix

One of the most critical ways that individuals can influence governmental decision-making is through voting. We know that everyone has the right to vote in our country. But many people are not aware of politics. It is make to pepole aware.
